KEYNOTES

Prof. Dr. Ana Cláudia Carvalho Campina

Universidade Portucalense Infante D. Henrique, IJP – Instituto Jurídico Portucalense, Portugal

Keynote Title: ““The evolution of the Education in Portugal and its Budgetary impact”

Abstract: The Education is a Human Right recognized and protected as European Union and Portuguese Constitutional Fundamental Right. More than the juridical and judicial recognizing and protection, the Education evolution has a direct dependance on the National expenses and investment, meaning that, it is important to understand the Budget Impact, along the last decades. Although all the most different controversies, considering the undoubtable relevance to the human and social “construction”, as a permanent but defined political, economic and financial strategy, the global Portuguese development is understandable by this particular study of the Education impact in the State Budget.

Keywords: Human Rights; Social State; Taxes; Education; Politicization; Portuguese National Budget

Keynote Title: “Online Assessment in Pandemic times”

Abstract: One of the most significant issues in education during the pandemic COVID-19 has been assessment. Online tools such as Blackboard are available. However, there are a number of problems that involve and are related to the different aspects of assessments. This presentation addresses a number of these aspects:

- 1- Initial problems
- 2- Constraints: security, privacy, taking online tests.
- 3- How to solve many of these problems - technical and personal.
- 4- Effects on the media - effect in anti-education moves

The presentation addresses topics such as distance proctoring, new types of assessments and test items. The conclusion is that this is a cultural issue that goes beyond each solution to the case. Interesting enough, most solutions are related to how each society interprets the role of testing, assessment and academic integrity.
